How to use

1. The handy magnetic clip closure allows the frame to open out flat and close like a book
2. The object is placed on one of the two silicone membranes and the frame closed.
3. The object is now surrounded by the two silicone membranes and remains in place.
4. The two halves are held firmly together by the magnetic lock.
5. The floating frame closes perfectly and protects your treasures from dust.
6. The collection object can be removed at any time to exchange it for another collector's item.
7. The suggested size of each object should be approximately 10mm less than the depth as stated in the outside dimensions
